

**COST Action CA16235**

**Action Title: Performance and Reliability of Photovoltaic Systems: Evaluations of Large-Scale Monitoring Data**

**Agenda**

**Workshops with all Working Groups - Meeting  
COST Association, Avenue Louise 149, Brussels, Belgium  
22 January 2018 from 9:00 to 17:00**

---

**Meeting objectives**

- To better get to know the team members in each WG.
  - To better define the scope of the WGs in the context of current research.
  - Identification of key research topics for each WG.
  - The results of the workshops will be embedded in the programmatic research activities of this Action for the next 3 and a half year.
  - At the end of the first Grant Period each WG and this Action as whole should have a well-defined program based on input of these workshops.
-
