

COST Action CA16235
Action Title: Performance and Reliability of Photovoltaic Systems: Evaluations of Large-Scale Monitoring Data

Agenda
Valorisation Panel Meeting
COST Association, Avenue Louise 149, Brussels, Belgium
23 January 2018 from 9:00 to 12:00

The main objective of the Valorisation Panel Meeting is to gather representatives from the industry, research organisations, banks, policy makers and end-use consumers to establish a productive and trustful relationship in order to elaborate strategic aspects and input for the energy performance and reliability of photovoltaic (PV) solar energy systems in Europe. We would like to bring together project partners and representatives for discussions on PV systems' performance and reliability challenges and related research and knowledge needs.

09:30h Registration and coffee

10:00h Presentation by Chair and Vice Chair about PEARL PV

10:45h Coffee Break

11:15h Guided discussion with stakeholders

11:50h Summary of the Meeting

12:00h Closure
